

# Report Lab02

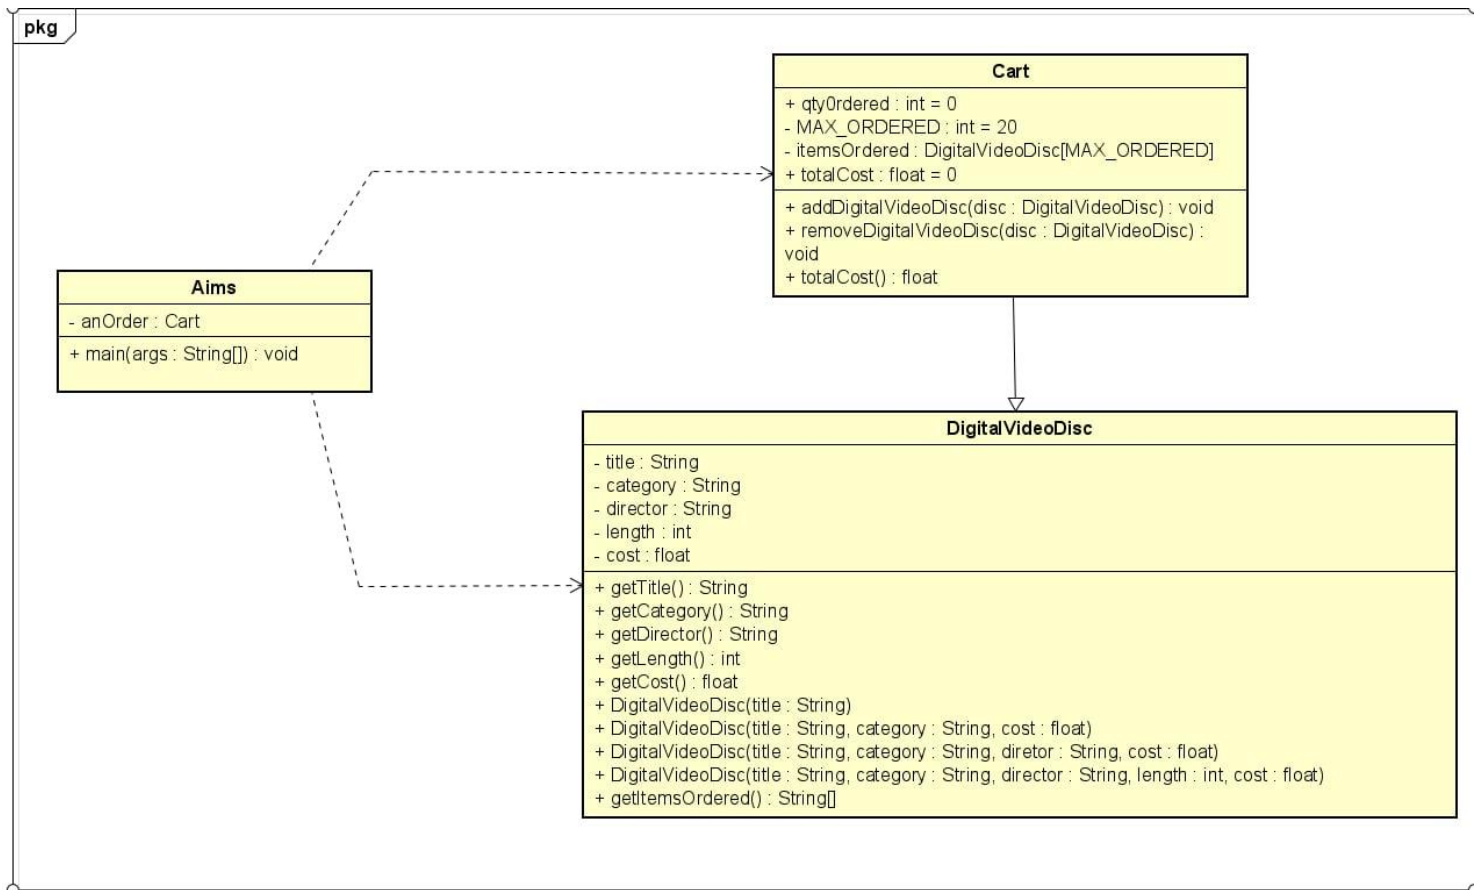

Student's name: Chu Văn An

Student's ID: 20235582

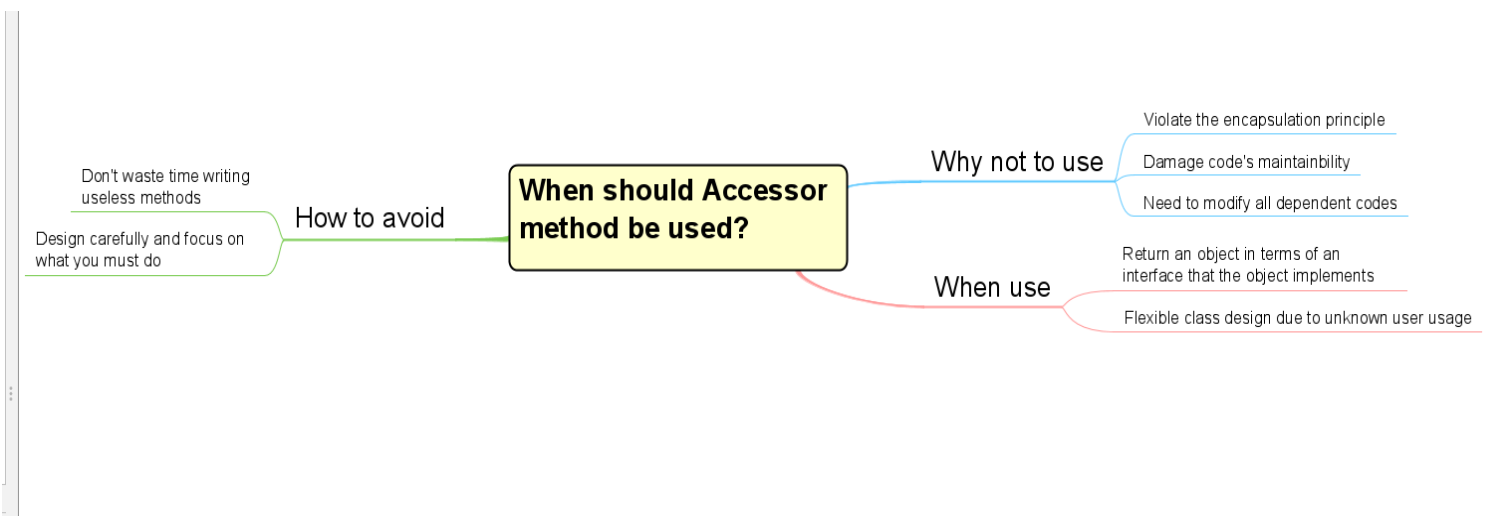

## I. Use case diagram

## II. Class diagram

### III. Reading assignment

### IV. Answering question

**Question:**

- If you create a constructor method to build a DVD by title then create a constructor method to build a DVD by category. Does JAVA allow you to do this?

**Answer:**

- These two constructors take the same number and type of parameters, hence it will result in a error, because in order to differentiate between constructors, they must have different signatures.
